

Quick-Start Guide

IRLinc™ - INSTEON® Home Theater Lighting Control Kit

Model: 2490A7 – 6-piece starter kit includes everything needed to start an INSTEON automation system with remote control access and control for your home theater system

Your Starter Kit Contains:

- Two (2) LampLinc™ (Dual-Band) modules (#2457D2)
- Two (2) SwitchLinc™ Dimmers (#2476D)
- One (1) KeypadLinc™ Dimmer (#2486DWH6)
- One (1) IRLinc™ Receiver with IR Credit Card Remote (#2411R)

INSTEON is a simple, reliable, and affordable breakthrough in home control. Simple - INSTEON uses Plug-n-Tap™ installation and programming that takes only minutes to setup. Reliable - every INSTEON device is a 2-way repeater, using existing power line wiring as well as radio frequency for communication. Affordable - INSTEON home automation products are priced at just a fraction of comparable systems. A home with INSTEON automation grows in value with every device you add, and truly makes life more convenient, safe and fun.

Installation

- 1) Install each LampLinc (Dual-Band) module, referencing the Quick-Start Guide provided with that product
- 2) Use the LampLinc (Dual-Band) Quick-Start Guide to test that the modules are bridging the phases in your home
- 3) Install each SwitchLinc Dimmer, referencing the Quick-Start Guide provided with that product
- 4) Install the KeypadLinc Dimmer, referencing the Quick-Start Guide provided with that product
- 5) Install the IRLinc Receiver, referencing the Quick-Start Guide provided with that product
- 6) Follow the Linking instructions in the IRLinc, SwitchLinc, KeypadLinc and/or LampLinc (Dual-Band) Quick-Start Guides to begin setting up your new automation system. Each Quick-Start Guide contains the simple steps needed to set up each product as a Controller, Responder, or both!
